

## Ordering Information for the *TCF2* DNA Sequencing Test (Renal Cysts and Diabetes Syndrome)

### Indications for Testing

- Renal cysts of unknown etiology
- Family history of Renal Cysts and Diabetes syndrome

### Ordering Information

| Gene(s)     | CPT Codes                                               | Test Code |
|-------------|---------------------------------------------------------|-----------|
| <i>TCF2</i> | 83891(1) 83892(1) 83898(9) 83904(18) 83909(18) 83912(1) | 170201    |

### Family Testing (single amplicon)

|             |                                                       |        |
|-------------|-------------------------------------------------------|--------|
| <i>TCF2</i> | 83891(1) 83892(1) 83898(1) 83904(2) 83909(2) 83912(1) | 170201 |
|-------------|-------------------------------------------------------|--------|

### Test Methodology

- Amplification by polymerase chain reaction (PCR); sequencing of entire protein-coding region

### Sample Requirements

- For blood samples:
  - 2 mL whole blood in EDTA tube (lavender top)
  - Samples can be stored briefly at 4°C, but should be shipped on day of collection.
- For buccal swab samples:
  - Please contact client services at 1-866-647-0735 for instructions.
- All sample types should be shipped overnight at room temperature.
- To request a sample shipping kit, please call 1-866-647-0735.

### Turn-around Times

Turn-around times typically range from 7 to 21 days of receipt of sample and all required forms, but may vary depending on test volume and test-specific technical difficulties. Current TATs are posted on our website. Please schedule patient follow-up appointments for discussion of test results conservatively at 6 weeks.
